

Mix and Match Luggage System

Kompact 4 & Kompact 8 Holdall System

The Kompact Holdall system comprises of a choice of two main Holdalls that can be purchased on their own or with the Shell case ready made rods holdalls to make up the versatile Holdall system.

The Kompact 4 has a main storage compartment that takes two Shell case holdalls. It can be used with or without the Shell cases. The second storage compartment has the capacity for 4-5 rod tubes plus inner umbrella and bank stick pocket.

The only difference between the Kompact 4 & 8 holdall is the Kompact 8 has an additional storage compartment taking its storage capacity to 8 – 10 tubes.

Great care and attention has been given to the design of the shoulder strap and carrying handle where optimum strength and comfort has been achieved. Finished with high quality zips and 650DD hard wearing material.

Shell Case

The Shell case holdall slim design is simple yet effective. It has a hard outer shell for maximum protection with multiple fixing points throughout the leading edge for 2 made up rods (up to 11ft two piece).

It is fitted with a shoulder strap and carrying handle so it can be used on its own.

Finished with high quality zips and 650DD hard wearing material with a clear window waterproof label pocket so you can quickly identify the contents of the holdall.
