

Pole Pellecat 1

Pole Pellecat 1 has a strong yet lightweight frame fitted with an anti-slip grip handle, soft hollow 3mm Latex and a robust plastic pouch.

It is well balanced and is easy to hold and feed with pinpoint accuracy when using a pole.

Ideal for feeding small amounts of loose feed little and often within pole range, perfect when fishing up in the water.

Pole Pellecat 1 56013 040 3mm Latex Short range

Pole Pellecat 2

Pole Pellecat 2 has a strong yet lightweight frame fitted with an anti-slip grip handle, soft hollow 4mm Latex and a robust plastic pouch that is slightly larger than the one fitted to the Pole Pellecat 1.

It is well balanced and is easy to hold and feed with pinpoint accuracy when using a pole.

Ideal for feeding small amounts of loose feed little and often within pole or close to medium range when fishing a waggler, perfect when fishing up in the water.

Pole Pellecat 2 56013 050 4mm Latex Medium range

Wag Pellecat

Wag pellecat is bigger and more powerful than the pole pellecat series and has been designed to fire larger amounts of baits such as pellets corn casters maggots etc at distance.

Ideal when fishing the Pellet Waggler but is equally at home on rivers.

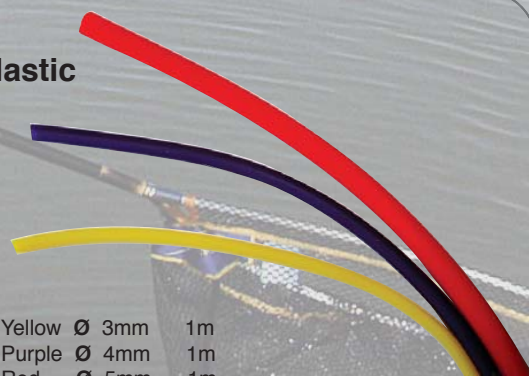

Wag Pelecat 56013 060 5mm Latex Medium to long range
