49691 001

Pole Sock

Padded protection net that holds the unshipped pole sections secure. Ideal in windy conditions.

49753 106

Pole Clean Kit

The easy and most efficient way to remove all the grit and grime from the internal wall of pole sections.

Keeping the pole sections clean will reduce wear and tear as grit will act as sandpaper rapidly reducing the wall thickness that will ultimately lead to breakages.

The kit comprises of 3 different size brushes and a selection of threaded rods.
