Select Big Fish

As the name suggests Big Fish has been developed with quality fish in mind. It contains a high food content and is also very sticky, enabling you to add large quantities of feed to the mix such as pellets, hemp, maggots, worms, casters, corn and other particle baits. Excellent for lakes and rivers.

Eurocup

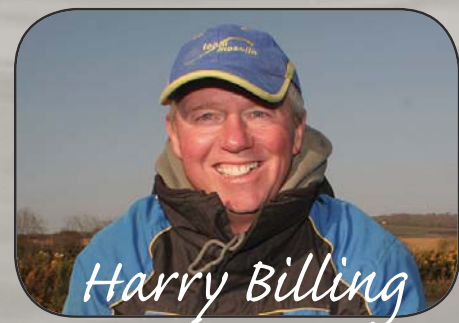

Eurocup was developed for fishing still waters, canals and slow moving waters. It has a low degree of saturation and therefore is very suitable for fishing with Bloodworm & joker as well as maggots casters and pinkies. The attractants in this groundbait are very appealing to all types of silver fish
