

## Heavy Damp Leam (Natural)

High quality Damp Leam (Natural) that can be used to add weight to the mix without adding feed content. It can also be used to separate and prepare Joker prior to adding to the mix. Ideal for mixing with Bentonite (Grey Leam) when Double Leaming.

21981 201 2kg

## Terra River

The heaviest of the leams, ideal for use in deep or flowing water. It can be used to add weight to a heavy groundbait mix or can be blended with other leams to give you a low feed mix that is perfect for Bloodworm & Joker.

21981 203 2kg

## Heavy Damp Leam (Black)

High quality Dark Damp Leam (Black) that can be used to add weight to the mix without adding feed content. It can also be used to separate and prepare Joker prior to adding to the mix. Ideal for mixing with Bentonite (Grey Leam) when Double Leaming. Perfect in clear conditions

21981 202 2kg

## Bentonite Leam Binder (Grey Leam)

Specially developed powerful binder for all types of Leam that will allow large amounts of bait such as Bloodworm & Joker to be added to a mix. When mixed with Damp Leam this is known as Double Leaming

21971 135 350g
