

Manic Impact Genius Bait Station

The Manic Impact Genius Bait Station was the first all round pellet pump and bait storage system on the market and is still going strong with many anglers using the original model, this is proof of how robust this product is. Despite many other cheaper bait pumps hitting the market in that time most fail after a short period of time.

The Manic Impact Genius Bait Station is available in 3 sizes

Bait Slice

The Bait Slice has been designed to cut the Magic Bread into slices.

The cutting action is the same as a cheese wire and can also be used to cut soft baits such as luncheon meat.

Manic Impact Coarse Hair Pellets

In independent tests these pre drilled pellets have outlasted all other pellets of their type. The light brown colour matches the low oil coarse feed pellets now preferred on a majority of commercial fisheries.

The advantage the Manic Impact Coarse Hair Pellets have over the standard feed pellets is that they stay intact for longer in the water allowing you to catch more fish on the same Hookbait.

- Pre – Drilled
